SOCKS

sj sock

Material	75% cotton
	23% polyester
	2% elastic
Sizes	39-42
	43-47

thermocool

Material	41% cotton
	33% thermocool
	20% Nylon
	3% X-static
	3% elastane
Sizes	40-43
	44-47

Perfect socks for working in normal or hot weather. The THERMO COOL-part optimises temperature and coolness of the foot. The AIRPLUS-ventilationsystem cools the lower leg and provides the necessary comfort. Using STRETCH-material on the front of the foot, this sock has a perfect fit.

The ESD norm for these socks is only valid in combination with safety shoes with ESD norm.

Anti cut

Extreme comfort anatomic insole

Air ventilation system insole

Anti perforation SJ FLEX midsole

Extra flexible
anti-perforation sole

Extra light, extra flexible and extra strong. Those are the three keywords that are combined in one shoe due to the use of a Anti perforation SJ FLEX midsole and a composite toe.

Anti perforation SJ FLEX is an innovative technology that combines high strength with light weight. Anti perforation SJ FLEX has proved his quality in different applications.

Now, we used the Anti perforation SJ FLEX innovation in a complete range of safety shoes which make them safer, stronger, lighter, more flexible and more comfortable than his steel brothers.

Safety Jogger brings shoes with a breathable pre-moulded EVA insole, designed to give maximum comfort and air control.

Composite toecap

Extra lightweight and strong toecap

Water resistant uppers
